

BRILLIANT BEGINNINGS

Class 2, our next topic in the Spring term is Inventions and Discoveries.

To hook you into this new exciting topic I have set a menu of challenges for you to choose from during the holiday period. Please complete at least two challenges. The menu will guide your learning but use your own ideas too.

All your work will be displayed on the 'Brilliant Beginnings' board in the classroom and will be used as part of our Inventions learning journey.

Design a comic strip in the style of Wallace and Grommit.	Create an inventor's fact file.	Invent your own maths board game.	Write a story about a magic invention.
Invent a new product using recycled materials.	Research famous inventors from the past.	Draw/paint a picture in the style of Leonardo Da Vinci.	Find out about new inventions.
Write instructions for your maths board game.	Create a magic potion recipe. Use your measuring skills.	Watch a film e.g. 'UP' Design a flying machine. Explain how it works.	Make a poster to advertise a new invention.
Invent a new animal. What would it look like, where would it live? What would it eat?	Design a Lego model. Write instructions for a friend so they can build your invention.	Research inventions from around the world. Mark these locations on a map.	Non- Fiction Label a diagram of an invention you find interesting.
